

IE 4727 Web Application Design

Week 1 Overview + Web Server Setup

Lecturer: Dr. Hu Xiao

Summary on Week 04

Table & Form

- Table:
 - Create table: `<table>`, `<tr>`, `<td>`
 - rowspan & colspan
 - Structural elements: header, section
- Form:
 - Form element `<form>` attributes: action, method, name, id, etc.
 - Type of input element: text, password, checkbox, radio, textarea, select, option, submit button, reset button, calendar, time.
 - Advanced application: hidden field, readonly, label element, fieldset, legend element.
 - Basic form validation: placeholder, required.
- Using CSS to Style a Table and Form

Week 04 Lab Exercise

1. Create Folder Week 04 and try all the exercises, i.e, Exercise TAB01-TAB05 and Practices under Topic Tables and Forms.

2. Create Folder CaseStudy_02 and put under Week 04 Folder

Assessment by today. Requirements on CS 02 can be found in main course site -> Case Studies -> Case Study 02. Please watch the briefing video [Case Study 02_video](#) before implementation.

Case Study 02: HTML5 + CSS3+ Table & Form

➤ Folder & File Structure

- Create a folder named casestudy_02, same the final pages in the week 04 folder
- Include four web pages: Home; Menu; Music; Jobs page

➤ Layout & Design

- Follow the given layout as closely as possible; Use the PDF lecture slides as a guideline for the color scheme.
- Include four web pages: Home; Menu; Music; Jobs page

➤ Home Page Requirements

- Header Section: contain the JavaJam Coffee House image, image can be superimposed in the background. (You can create your own image to replace the "JavaJam Coffee House" img)
- Navigation Section: Provide links to the other three pages.
- Footer Section: Include an email address using your own last name.

➤ General Page Requirements

- Center the content on all pages.
- Ensure 80% coverage of the window size.
- Minimum Width: 800px.
- If using the external images, cite the source.

Case Study (Part 2): HTML5 + CSS3+ Table & Form

- When the menu item “Menu” is clicked, the following page will be shown.
- The actual content in the page is not important, but the [CSS styling is important](#).
- You can choose to use similar fonts.

Table

JavaJam Coffee House							
Home Menu Music Jobs	Coffee at JavaJam <table><tr><td>Just Java</td><td>Regular house blend, decaffeinated coffee, or flavor of the day. Endless Cup \$2.00</td></tr><tr><td>Cafe au Lait</td><td>House blended coffee infused into a smooth, steamed milk. Single \$2.00 Double \$3.00</td></tr><tr><td>Iced Cappuccino</td><td>Sweetened espresso blended with icy-cold milk and served in a chilled glass. Single \$4.75 Double \$5.75</td></tr></table>	Just Java	Regular house blend, decaffeinated coffee, or flavor of the day. Case Study (Part 2): HTML5 + CSS3+ Table & Form

- When the menu item “**Music**” is clicked, the following page will be shown.
- The actual content in the page is not important. The embedded player is for playing MP3 music (or MP4 video). You may use your own images.

Table

Case Study (Part 2): HTML5 + CSS3+ Table & Form

- When the menu item “Jobs” is clicked, the following page will be shown.
- The CSS styling of the form is important. The action of the form should invoke the `show_get.php` or `show_post.php`. Note that you must visit this page through the web server.

Form method
=post

The screenshot shows a web page for 'JavaJam Coffee House' with a 'Jobs at JavaJam' section. The page has a brown header with the site name and a left sidebar with links: Home, Menu, Music, and Jobs. The main content area is yellow and contains a form for job applications. The form includes fields for Name, E-mail, Start Date, and Experience, with asterisks indicating required fields. There are 'Clear' and 'Apply Now' buttons at the bottom of the form. A footer at the very bottom contains copyright information for 2014.
